**PETITION TO CORRECT INVENTORSHIP IN PATENT PURSUANT TO 35
U.S.C. § 256 AND 37 C.F.R. 1.324 AND PETITION UNDER 37 C.F.R. §1.47(a)**

Sir:

Fiber Optic Design, Incorporated ("Fiber Optic") is the owner of the invention disclosed and claimed in the above-referenced U.S. Patent No. 7,066,628 based on U.S. application serial no. 11/755,463. Fiber Optic hereby petitions the Commissioner to correct the inventorship of the above-identified U.S. Patent by adding Mark Allen as a co-inventor with the named inventor David Allen. Mark Allen refuses to sign the statement pursuant to 37 C.F.R. 1.324(a)(1), thus, the assignee asks the Commissioner to correct inventorship based on the attached documentation.

A similar Rule 47 petition (see Exhibit A) under Rule 47(a) was previously GRANTED (see Exhibit B) by the office of petitions based on the exact same disclosure and essentially on the same facts at hand, where Mark Allen refused to sign the Declaration.

12/19/2008 SZEWDIE1 00000199 500548 11755463
01 FC:1464 130.00 DA

Pursuant to 37 C.F.R. 1.324(a), any request to correct inventorship of a patent must be accompanied by:

1. A statement from each person who is being added as an inventor that the inventorship occurred without any deceptive intent on his/her part;
2. A statement from the currently named inventors agreeing to the change of inventorship;
3. A statement from the assignee agreeing to the change of inventorship in the patent; and
4. The fee set forth in 37 C.F.R. 1.20(b).

It is noted that the child application based on U.S. application serial no. 11/755,463 included the same petition under 37 C.F.R. 47(a) which was granted based on the same facts present in this petition. See Exhibits A and B.

1. Statement of Mark Allen (omitted inventor)

Because Mark Allen refuses to execute the Statement under 37 C.F.R. 1.324(a)(1), the assignee hereby requests that the Commissioner correct the inventorship without the Statement from the person being added. The Declaration of Matthew Stavish, attached hereto as Exhibit C, establishing that Fiber Optic has requested Mark Allen to the statement pursuant to 37 C.F.R. 1.324(a)(1) and that Fiber Optic has receive a communication directly from Mark Allen and from Mark Allen's attorney confirming Mr. Allen's express refusal to sign the statement pursuant to 37 C.F.R. 1.324(a)(1). (Exhibit C, ¶ 3).

The above-captioned Patent No. 7,066,628 contains an invention for which Mark Allen is a co-inventor. As indicated in the attached Declaration of David Allen, Mr.

Allen was employed at Fiber Optic from May 1998 to December 25, 2003. (Exhibit D, ¶ 2). Mark Allen's invention set forth in this application occurred during and within the scope of his employment with Fiber Optic and prior to the date Mr. Allen left his employment with Fiber Optic. (Exhibit D, ¶ 2 & Attachment 1 thereto).

On November 15, 2008, an attorney for the assignee sent Mark Allen and his attorney, Raymond D. Mortier, Esq. a request to sign the required Statement as specified in 37 C.F.R. 1.324(a)(1). On December 03, 2008, Raymond Mortier, Esq. responded to say that Mark Allen would not sign the Statement, and on December 15, 2008 Mark Allen also sent assignee's attorney an e-mail explicitly refusing to sign any statement to correct inventorship. See Exhibit C, ¶ 3 and attachments thereto.

Based on the facts set forth in Exhibits C and D and Mark Allen's express refusal to sign the Statement under 37 C.F.R. 1.324 (a), assignee requests that the Commissioner correct the inventorship with the statement of the person being added.

2. Statement of David Allen (correctly named inventor)

The Statement of David Allen, the correctly-named inventor for the '628 patent, is set forth in Exhibit E at paragraph 3.

3. Statement by Assignee (Fiber Optic Designs)

The Declarations of David Allen, attached hereto as Exhibits D and E, provides proof of the ownership and proprietary interest of Fiber Optic with respect to the Patent Application and the right for Fiber Optic to make application on behalf and as agent for the uncooperative inventor inventor, Mark Allen. (Exhibit D, ¶¶ 2-3). The Declaration of David Allen further shows that this action is necessary to preserve the rights of Fiber Optic and prevent irreparable damage. (Exhibit D, ¶ 4). Moreover, the Declaration of

David Allen, Exhibit E, provides the required consent of the assignee to change the inventorship for US Patent 7,066,628 to add Mark Allen as an inventor.

As detailed in the Declaration of David Allen, Mark Allen was and remains obligated to assign the above referenced application to Fiber Optic as further supported by the Consulting Agreement (Exhibit D, ¶ 2 & Attachment 1 thereto). See page 5, paragraph 9 of the Consulting Agreement attached to Exhibit D as Attachment 1.

In fact, Mark Allen has executed assignments for the following prior applications from which the Patent Application claims priority benefits under 35 U.S.C. §§ 119/120:

<u>Serial Number</u>	<u>Date of Execution of Assignment</u>
09/141,914	August 28, 1998
60/119,804	June 21, 1999
09/339,616	June 21, 1999 (copy filed from parent)
09/819,736	July 31, 2002
09/243,835	continuation of 09/819,736
10/657,256	June 21, 1999 (copy filed from parent)

See Exhibit D, ¶ 3 & Attachment 2 thereto.

Attached hereto is a Declaration of David Allen stating that he is authorized to sign the declaration on behalf of Fiber Optic. Fiber Optic is entitled to make such application on behalf of and as agent for the inventor, Mr. Mark Allen, pursuant to 37 C.F.R. § 1.47(a), because the uncooperative inventor Mr. Mark Allen was employed by Fiber Optic at the time the invention was made and under an obligation under a Consulting Agreement (Exhibit D, ¶ 2 and Attachment 1 thereto) to cooperation in the above referenced application. Thus, Fiber Optic has a propriety interest in the invention.

Fiber Optic, therefore, respectfully requests that the Commissioner accept the request for correction of inventorship of the above-identified U.S. Patent No. 7,066,628 owned by Fiber Optic as the party to which the invention disclosed and claimed in said

patent belongs, and on behalf of the uncooperative inventor Mark Allen under 37 C.F.R.

§ 1.47(a).

4. Fee

The required fee of \$130 pursuant to 37 C.F.R. § 1.20(b) is enclosed.

The Commissioner is, however, hereby authorized to charge Applicant's representative's charge account 50-0548 for any fee deficiencies. Should the examiners believe further discussion would expedite prosecution they are invited to contact the undersigned at the number listed below.

PETITION FOR FILING BY ASSIGNEE UNDER 37 C.F.R. §1.47(b)

Sir:

Fiber Optic Design, Incorporated ("Fiber Optic") is the owner of the invention disclosed and claimed in the above-referenced Patent Application Serial No. 11/357,405.

Fiber Optic hereby petitions the Commissioner to accept the filing of the above-identified U.S. Patent Application (hereinafter "Patent Application") by the party having sufficient proprietary interest, Fiber Optic, under 37 C.F.R. § 1.47(b) and accept the declaration executed by Fiber Optic Incorporated on behalf of an uncooperative inventor Mr. Mark Allen. Also attached hereto is the declaration signed by the cooperative co-inventor David Allen.

The Declaration of David Allen, attached hereto as Exhibit A, provides proof of the ownership and proprietary interest of Fiber Optic with respect to the Patent Application and the right for Fiber Optic to make application on behalf and as agent for the uncooperative inventor inventor, Mark Allen. (Exhibit A, ¶¶ 2-3). The Declaration of David Allen further shows that this action is necessary to preserve the rights of Fiber Optic and prevent irreparable damage. (Exhibit A, ¶ 4). Additionally, the Declaration of Greg Tamkin, attached hereto as Exhibit B, establishing that Fiber Optic has forwarded of application and declaration to Mark Allen and that Fiber Optic has receive an email from Mark Allen refusing to sign the declaration/power of attorney. (Exhibit B, ¶¶ 2-3).

The name and most recently known address of the uncooperative inventor of this application is as follows:

Mr. Mark Allen
484 Summer View Circle
Encinitas, CA 92024

The above-captioned patent application contains an invention for which Mr. Mark Allen is a co-inventor. Mark Allen's invention set forth in this application occurred during and within the scope of his employment with Fiber Optic and prior to the date Mr. Allen left his employment with Fiber Optic. (Exhibit A, ¶ 2 & Attachment 1 thereto). As indicated in the attached Declaration of David Allen, Mr. Allen was employed at Fiber Optic from May 1998 to December 25, 2003. (Exhibit A, ¶ 2).

As detailed in the Declaration of David Allen, Mark Allen was and remains obligated to assign the above referenced application to Fiber Optic as further supported by the Consulting Agreement (Exhibit A, ¶ 2 & Attachment 1 thereto). See page 5, paragraph 9 of the Consulting Agreement attached to Exhibit A as Attachment 1.

In fact, Mark Allen has executed assignments for the following prior applications from which the Patent Application claims priority benefits under 35 U.S.C. §§ 119 and 120:

<u>Serial Number</u>	<u>Date of Execution of Assignment</u>
09/141,914	August 28, 1998
60/119,804	June 21, 1999
09/339,616	June 21, 1999 (copy filed from parent)
09/819,736	July 31, 2002
09/243,835	continuation of 09/819,736
10/657,256	June 21, 1999 (copy filed from parent)

See Exhibit A, ¶ 3 & Attachment 2 thereto.

Gregory Tamkin electronically mailed (e-mail) a copy of the application papers and declaration to Mark Allen. As evidence by the attached redacted e-mails, a complete copy of the specification, drawings and Declaration/Power of Attorney were delivered and reviewed by the uncooperative inventor Mark Allen. (Exhibit B, ¶ 2 & Attachment 1 thereto). However, Mr. Allow expressly refused to cooperate or sign the declaration and, to date, Fiber Optic has received no executed declaration. (Exhibit B, ¶ 3 & Attachment 2 thereto).

The attempts made by Fiber Optic to obtain Mr. Allen's cooperation and join in the above-captioned patent application are detailed in the attached Exhibits B and Attachments 1 and 2 thereto.

Because Mr. Allen has expressly refused to cooperate, the attached declaration signed by Fiber Optics (see Exhibit C) should be accepted in the absence of the uncooperative co-inventor and allow the prosecution of the above captioned invention to preserve Fiber Optic's proprietary interest. Attached hereto is a Declaration of David Allen stating that he is authorized to sign the declaration on behalf of Fiber Optic. Fiber

Optic is entitled to make such application on behalf of and as agent for the inventor, Mr. Mark Allen, pursuant to 37 C.F.R. § 1.47(b), because the uncooperative inventor Mr. Mark Allen was employed by Fiber Optic at the time the invention was made and under an obligation under a Consulting Agreement (Exhibit A, ¶ 2 and Attachment 1 thereto) to cooperation in the above referenced application. Thus, Fiber Optic has a propriety interest in the invention.

Fiber Optic, therefore, respectfully requests that the Commissioner accept the filing of the above-identified U.S. Patent Application by Fiber Optic as the party to which the invention disclosed and claimed in said patent application belongs, and on behalf of the uncooperative inventor Mark Allen under 37 C.F.R. § 1.47(b). The required fee pursuant to 37 C.F.R. § 1.17(h) is enclosed. The Commissioner is, however, hereby authorized to charge Applicant's representative's charge account 50-0548 for any deficiencies.

A Declaration and Power of Attorney executed by Fiber Optic on behalf of Mark Allen is attached hereto as Exhibit C.

Should the examiners believe further discussion would expedite prosecution they are invited to contact the undersigned at the number listed below.

OFFICE OF PETITIONS

In re Application of
Mark R. Allen et al.
Application No. 11/357,405
Filed: February 21, 2006
Attorney Docket No. 5211.052

:
:
: DECISION ACCORDING STATUS
: UNDER 37 CFR 1.47(a)
:

This is in response to the petition filed under 37 CFR 1.47(b) on May 22, 2006 which is treated under 37 CFR 1.47(a).

The petition is **GRANTED**.

The above-identified application was filed on February 21, 2006, naming Mark R. Allen and David Allen as joint inventors but without an executed oath or declaration. Accordingly, a Notice to File Missing Parts was mailed March 22, 2006 requiring an executed oath or declaration.

In response, the instant petition and an oath or declaration executed only by joint inventor David Allen was filed, seeking status under 37 CFR 1.47 claiming Mr. Mark R. Allen expressly refuses to execute the declaration.

At the outset, petitioner is advised that if none of the named inventor(s) will sign the oath or declaration, a petition under 37 CFR 1.47(b) must be filed. If some of the named inventors signed the oath or declaration and one or more of the named inventors have not signed the declaration, a petition under 37 CFR 1.47(a) must be filed. In the instant case, two inventors have been named but the oath or declaration is missing the signature of only one of the named inventors, thus, this petition will be treated under 37 CFR 1.47(a).

A grantable petition under 37 CFR 1.47(a) requires: (1) proof that the non-signing inventor cannot be reached or refuses to sign the oath or declaration after having been presented with the application papers (specification, claims and drawings); (2) an acceptable oath or declaration in compliance with 35 U.S.C. §§ 115 and 116; (3) the petition fee; and (4) a statement of the last known address of the non-signing inventor.

The petition bears proof that the application papers were sent to the non-signing inventors at his last known email address and that he has responded, by email, expressly refusing to execute a power of attorney. Although Mr. Mark R. Allen does not indicate his refusal to execute the oath or declaration and to cooperate with the filing of the instant application, the fact that he has been forwarded the application papers and has not to date returned any executed documents, we will construe his actions to be that of a refusal.

The above-identified application and papers have been reviewed and found in compliance with 37 CFR 1.47(a). In view thereof, this application is hereby accorded Rule 1.47(a) status.

Thus, as provided in Rule 1.47c, this Office will forward notice of this application's filing to the non-signing inventor at the address given in the petition. Notice of the filing of this application will also be published in the Official Gazette.

This matter is being referred to Technology Center 2875 for examination in due course.

Telephone inquiries concerning this matter may be directed to the undersigned Petitions Attorney at (571) 272-3212.

DECLARATION OF MATTHEW STAVISH

Sir:

I, Matthew Stavish, declare and say:

1. I am an attorney with the firm of Berenato, White & Stavish, who represents Fiber Optic Design, Incorporated ("Fiber Optic") in various intellectual property matters. I have first-hand knowledge of the facts surrounding the error of inventorship in the above-captioned Patent No. 7,066,628 and the refusal of one inventor, Mr. Mark Allen, to execute the Statement required to correct the inventorship of an issued patent pursuant to 37 C.F.R.1.324(a)(1), and I respectfully submit that this Declaration will provide evidence sufficient to meet the requirements of 37 C.F.R. § 1.47(a).

2. On January 13, 2004, I filed the above-captioned patent application listing only David Allen as the sole inventor. This error of inventorship arose without any deceptive intent on the part of the named inventor; i.e., David Allen, or on the part of the person who through error was not named as an inventor; i.e., Mark Allen.

3. On November 15, 2008, I sent Mark Allen and his attorney, Raymond D. Mortier, Esq. a request to sign the required Statement as specified in 37 C.F.R. 1.324(a)(1). On December 03, 2008, Raymond Mortier, Esq. responded to say that Mark Allen would not sign the Statement, and on December 15, 2008 Mark Allen also sent me the attached e-mail explicitly refusing to sign any statement to correct inventorship. See attachments hereto.

5. As of the date of this Affidavit, no further response has been received from either Mark or his attorney. In a prior application, Mark Allen expressly refused to sign any papers or assist with the correction of inventorship for the above-captioned U.S. Patent No. 7,066,628.

6. I previously filed a similar petition under Rule 47(a) for a prior application (Serial No. 11/357,405) in the same chain of pendency as the instant application – based on substantially the same facts. My prior petition was granted. See Exhibit B.

7. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that

such willful false statements may jeopardize the validity of the application or any patent issued thereon.

This is spelled out in plain English below. David Allen has not invented anything and it is illegal for me to sign any form of co-inventors. YES I STILL REFUSE TO DO ANY SUCH ILLEGAL ACT. The CORRECT thing to do is to rename all patents as they should be: with me as sole inventor, and also allow me to correct the mistakes in them. Thank you,
Dr. Mark R. Allen

Please confirm that Mark refuses to sign any paperwork that names BOTH Mark and David as co-inventors. I just want my records to be clear.

DECLARATION OF DAVID ALLEN

Sir:

I, David Allen, declare and say:

1. I am President of Fiber Optic Design, Incorporated ("Fiber Optic") and I have first-hand knowledge of the facts surrounding the refusal of one inventor, Mr. Mark Allen, to execute the Declaration for the above-identified application (hereinafter "Patent Application"), and I respectfully submit that this Declaration will provide evidence sufficient to meet the requirements of 37 C.F.R. 1.47(b).

2. As evidenced by the attached "Consulting Agreement" (Attachment 1 hereto), Mark Allen was employed by Fiber Optic beginning April 18, 1998 and was obligated to assign all inventions to Fiber Optic. See paragraph 9 of Attachment 1. Mark Allen's employment ended December 25, 2003. During this time period, Mark Allen was a co-inventor of subject matter included in the Patent Application based on activity performed as part of his duties as a consultant for Fiber Optic.

3. The Patent Application claims the benefit of a number of prior US patent applications under 35 U.S.C. 119 and 120. Mark Allen has executed assignments for the following applications:

<u>Serial Number</u>	<u>Date of Execution of Assignment</u>
09/141,914	August 28, 1998
60/119,804	June 21, 1999
09/339,616	June 21, 1999 (copy filed from parent)
09/819,736	July 31, 2002
09/243,835	continuation of 09/819,736
10/657,256	June 21, 1999 (copy filed from parent)

The respective assignments executed by Mark Allen are attached as Attachment 2 hereto.

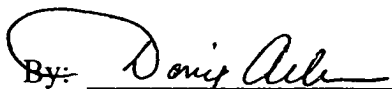

4. On March 22, 2006, the U.S. Patent and Trademark Office mailed a Notice to File Missing Parts of Non-Provisional Application filed under 37 C.F.R. 1.53(b). Fiber Optic must timely respond to the Notice or the application will go abandoned, thus resulting in irreparable harm.

5. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that

such willful false statements may jeopardize the validity of the application or any patent issued thereon.

DECLARATION OF DAVID ALLEN

Sir:

I, David Allen, declare and say:

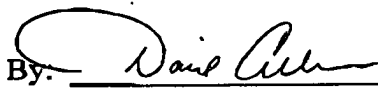

1. I am President of Fiber Optic Design, Incorporated ("Fiber Optic") and I have first-hand knowledge of the facts surrounding the refusal of one inventor, Mr. Mark Allen, to execute the Declaration for the above-identified application (hereinafter "Patent Application"), and I respectfully submit that this Declaration will provide evidence sufficient to meet the requirements of 37 C.F.R. 1.47(b).
2. I am named as the sole inventor for above-identified U.S. Patent No. 7,066,628. Fiber Optic recently discovered that the inventorship for the '628 patent was erroneous without deceptive intent on my part or the assignee, Fiber Optic Design.

3. I agree to the change of inventorship proposed in the attached petition; i.e., a change to add Mark Allen as a co-inventor for the '628 patent.

4. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Respectfully submitted,
